

Definitions:

✓ **Renewable energy/ fossil free:**

- ✓ Electricity with renewable energy certificates
- ✓ Hydrogen from renewable source
- ✓ Biofuels that comply with the sustainability criteria of the 'Produktforskriften' in Norwegian legislation (based on the EU Renewable Energy Directive): 50-60% CO₂-e reduction

Zero emission:

- ✓ Electricity with renewable energy certificates
- ✓ Hydrogen from renewable source

System boundary – will be extended in the future:

- ✓ Today: Emissions during operation, from engine only.
- ✓ Future: Include indirect emissions and other sources?
