

Dialogkonferanse om betalingsløsninger i RuterBilett

Gunnar Johansson, Travel & Transport industry leader IBM Nordic
Henning Bjørnland, Client Representative IBM Norway

13.09.2017

The Future is already here

IBM Payment Gateway

Simultaneous Validation Solution

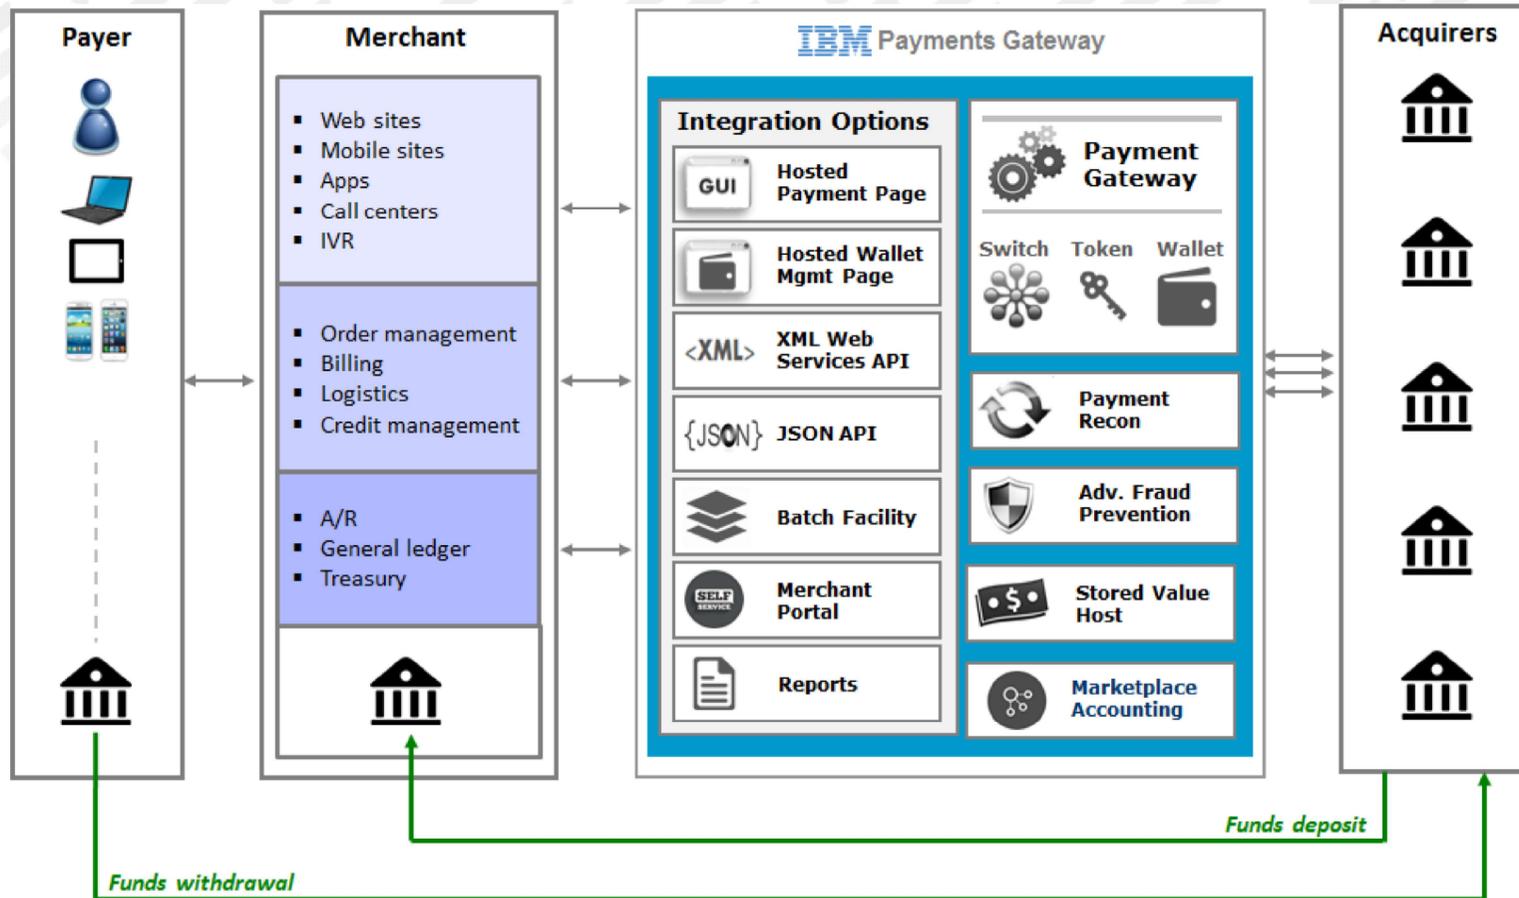

Bluemix cloud platform bring your ideas to production

Multi modal travel&transport charging Solution

Cognitive Mobility Services

Transit Event Management Solution

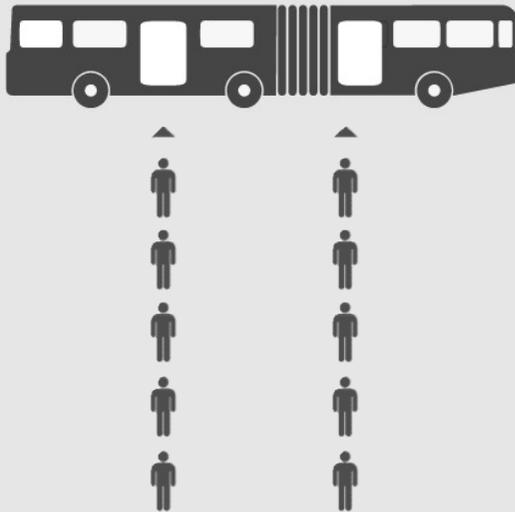

IBM Payment Gateway – Delivered in Norway by Retail Payment AS

Simultaneous Validation

Using the HopOn beacon, we developed a patent pending, low cost system that works in parallel, supporting multiple, simultaneous validation. That means that if 5 or 10 passengers board the bus at one station, all of them can validate their ride at the same time.

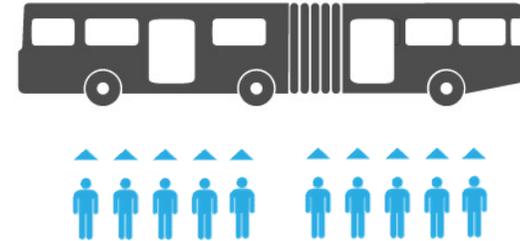

One by one validation

10 Passengers = 40 Sec.

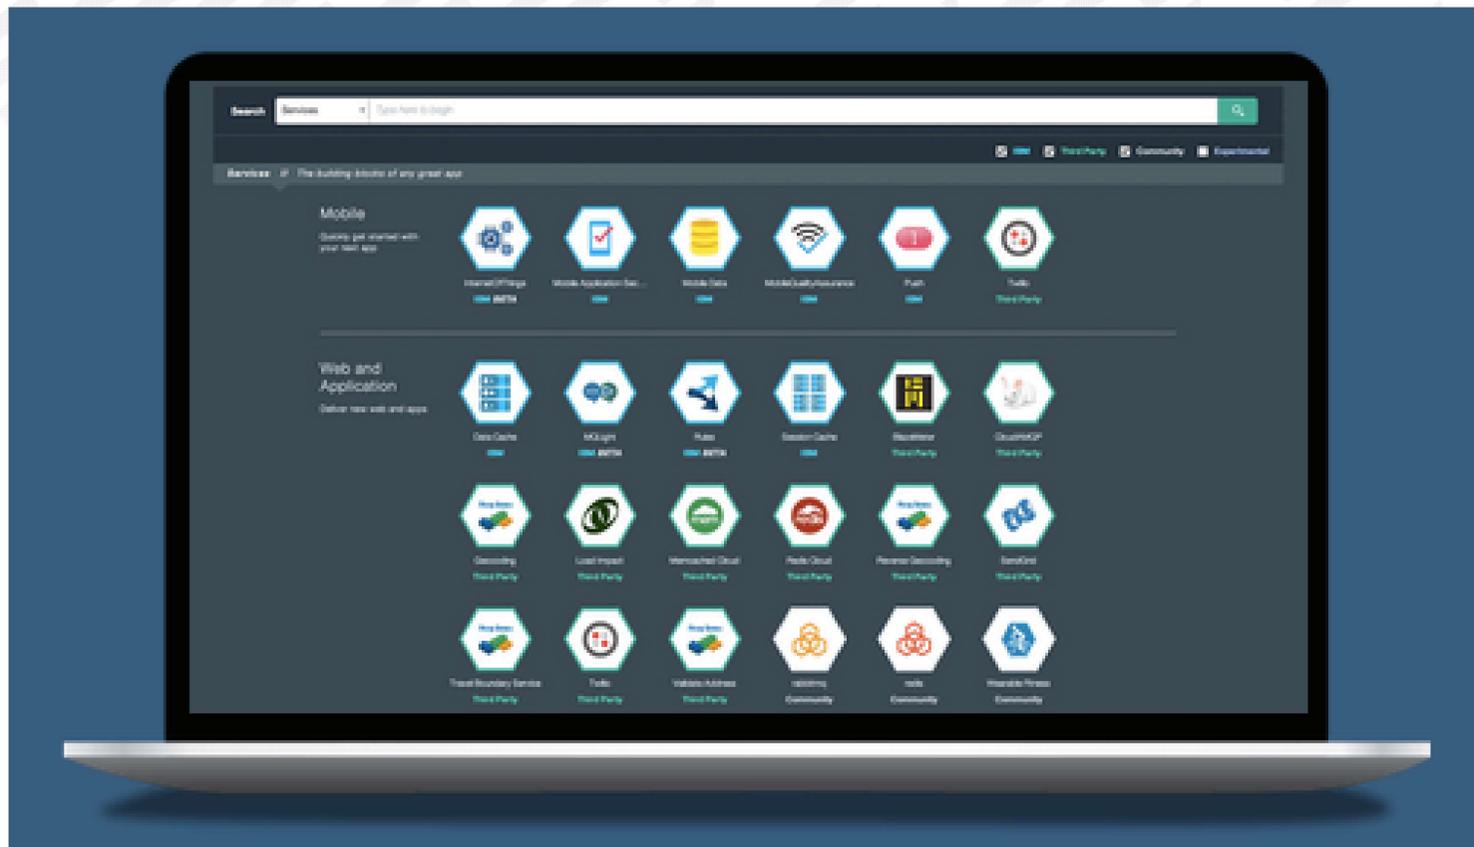

VS.

HopOn's simultaneous validation

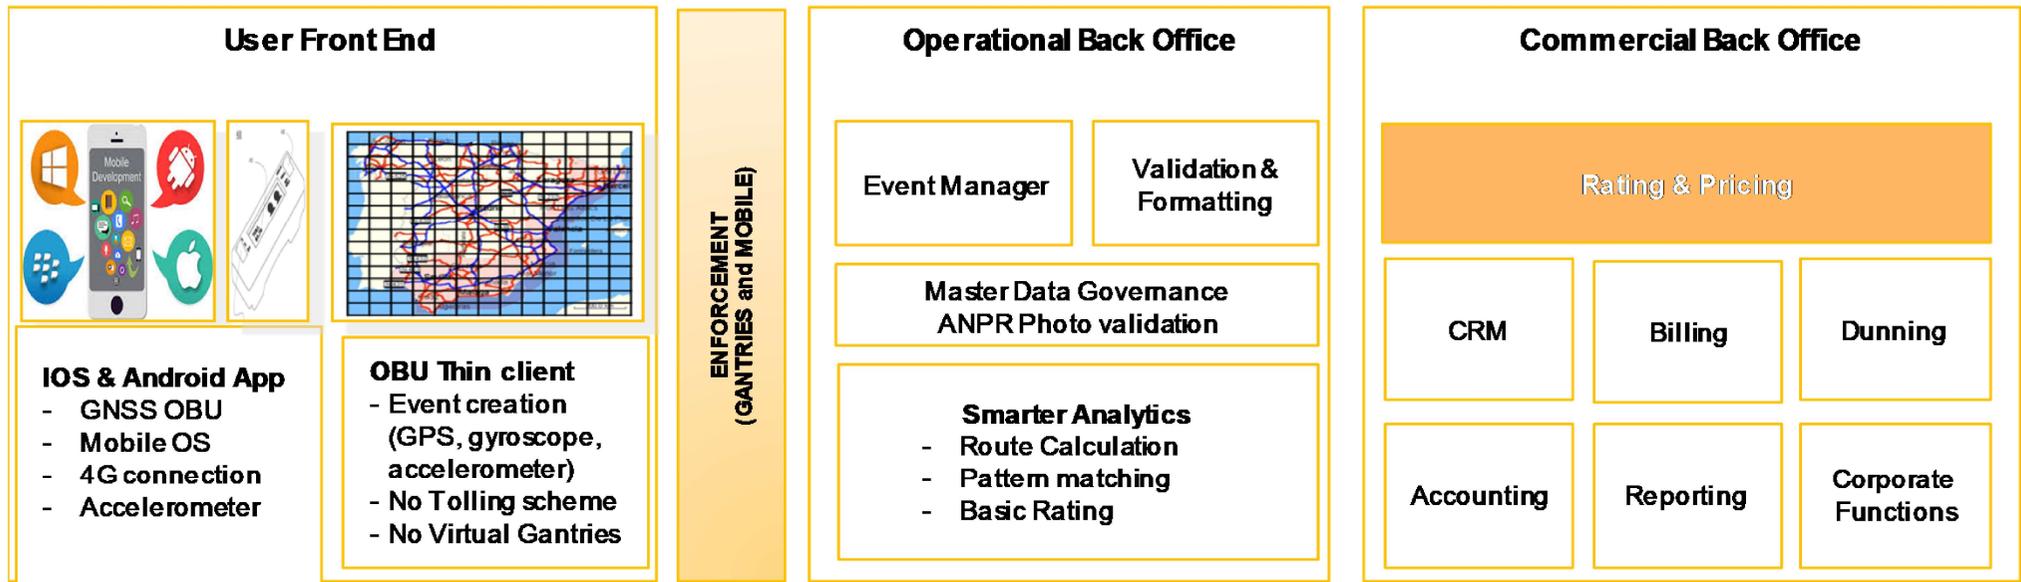

10 Passengers = 4 Sec.

The IBM Bluemix cloud platform helps you solve real problems and drive business value with applications, infrastructure and services

Multi modal Fare & Toll management solution based on IOS & Android App User Front End

Transform with cognitive IoT
IBM Watson IoT

Bluemix Services

hybris software
An SAP Company

COGNITIVE MOBILITY SERVICES DELIVERED

ON STAR GO

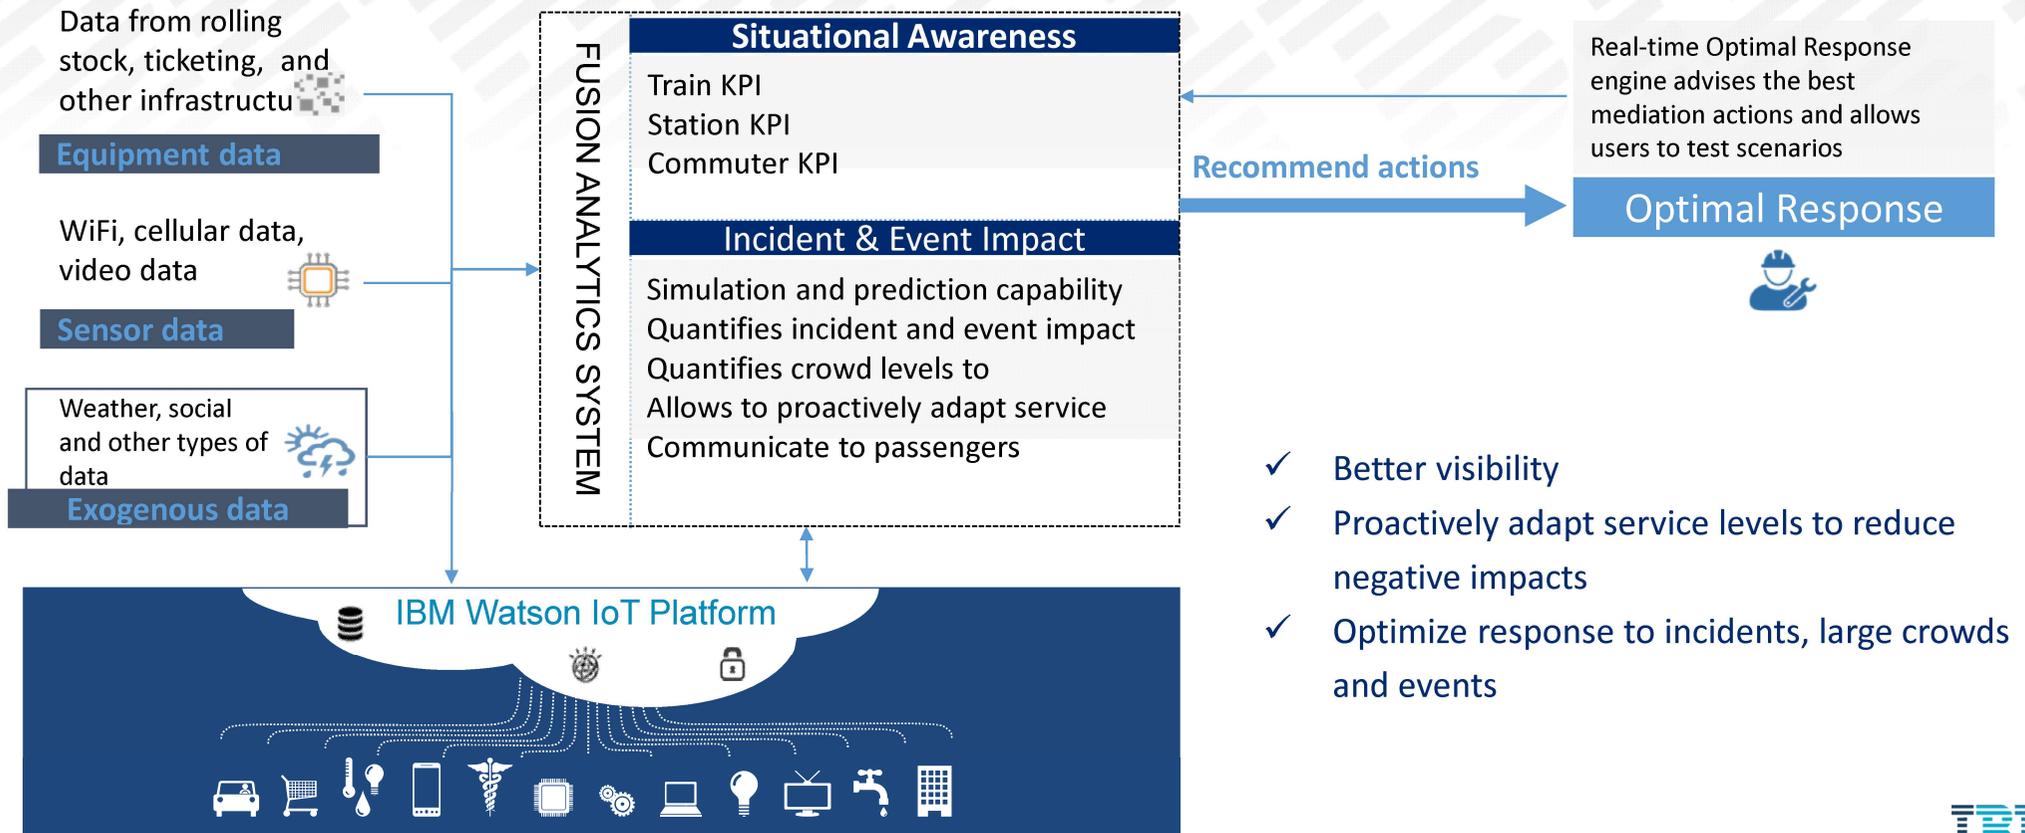

Based on IBM Watson IoT

A DRIVING EXPERIENCE PLATFORM
DESIGNED FOR THE COGNITIVE ERA

- A factory installed, unified communications system
- Enabling valuable interactions between GM customers, the vehicle, and the greater world.

Transit Event Management Solution in Singapore Based on IBM Intelligent Operational Center

Infrastruktur

Digitalisering

Skyen

Kognitive løsninger

Betalingstjenster i det Norske markedet levert Retail Payment AS
Økosystem av fremtidige løsninger som skaper merverdi til den reisende
Digitaleseringsplattform som åpner for bruk av Watsom teknologi (KI)
Infrastruktur plattform og Sky tjenester levert fra norsk driftssenter
