

MOBILITY FORUS

Victoria, we are riding
in a self-driving bus.

Mobility Forus featured in The Explorer – Norway's official marketplace for green, sustainable solutions.

Our mission is **clear**:
We move autonomous
mobility forward
through delivering
long-term, **fit-for-
purpose** solutions that
serves a **need** and
increases **social
acceptance**.

YAGO – Test Arena

National and international test arena for autonomous solutions on **land**, in the **air** and at **sea**

Facilities for testing in **closed** area, and in **mixed traffic**. Includes approved route in mixed traffic.

Physical and digital infrastructure available

Almost **1 million** square metres.
Equivalent of 120 football fields

Welcoming project owners, AV manufacturers and others to test vehicles and technology

“If this works
in Bodø it
will **work**
anywhere!”

Siri Vasstveit,
project manager,
Smart Transport
Bodø

**Stavanger East
Badedammen**

Route: 2,5km

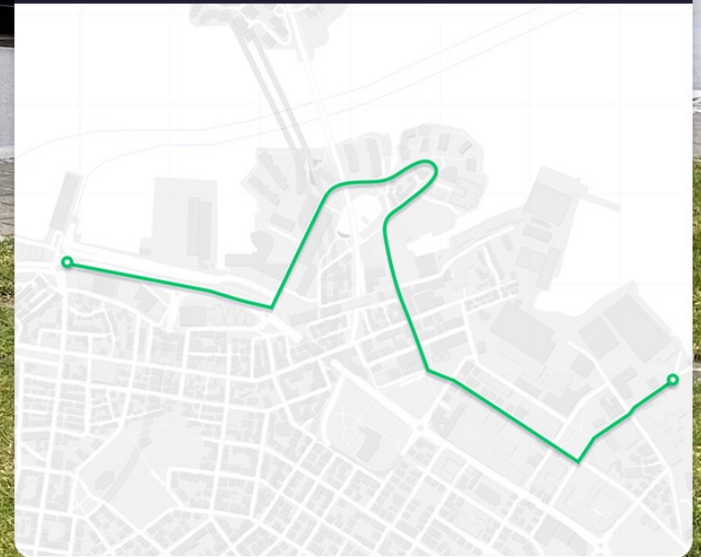

Where: Mixed traffic in city centre

Period: Oct 2020 - oct 2022

Vehicles: Navya

Partners: Holo, Boreal

Project owners: Kolumbus

Currently involved in
two cutting-edge
projects aimed at
taking autonomous
transportation to the
next level

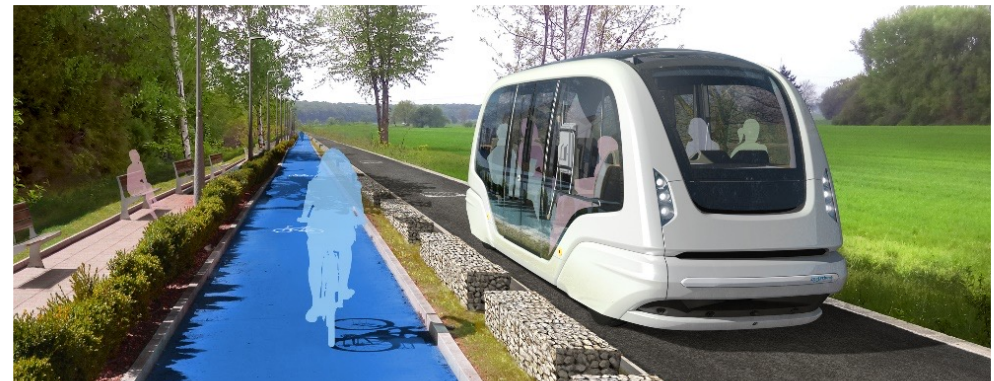

Sustainable Drill& Drive:
autonomous operations
in purpose-built tunnels

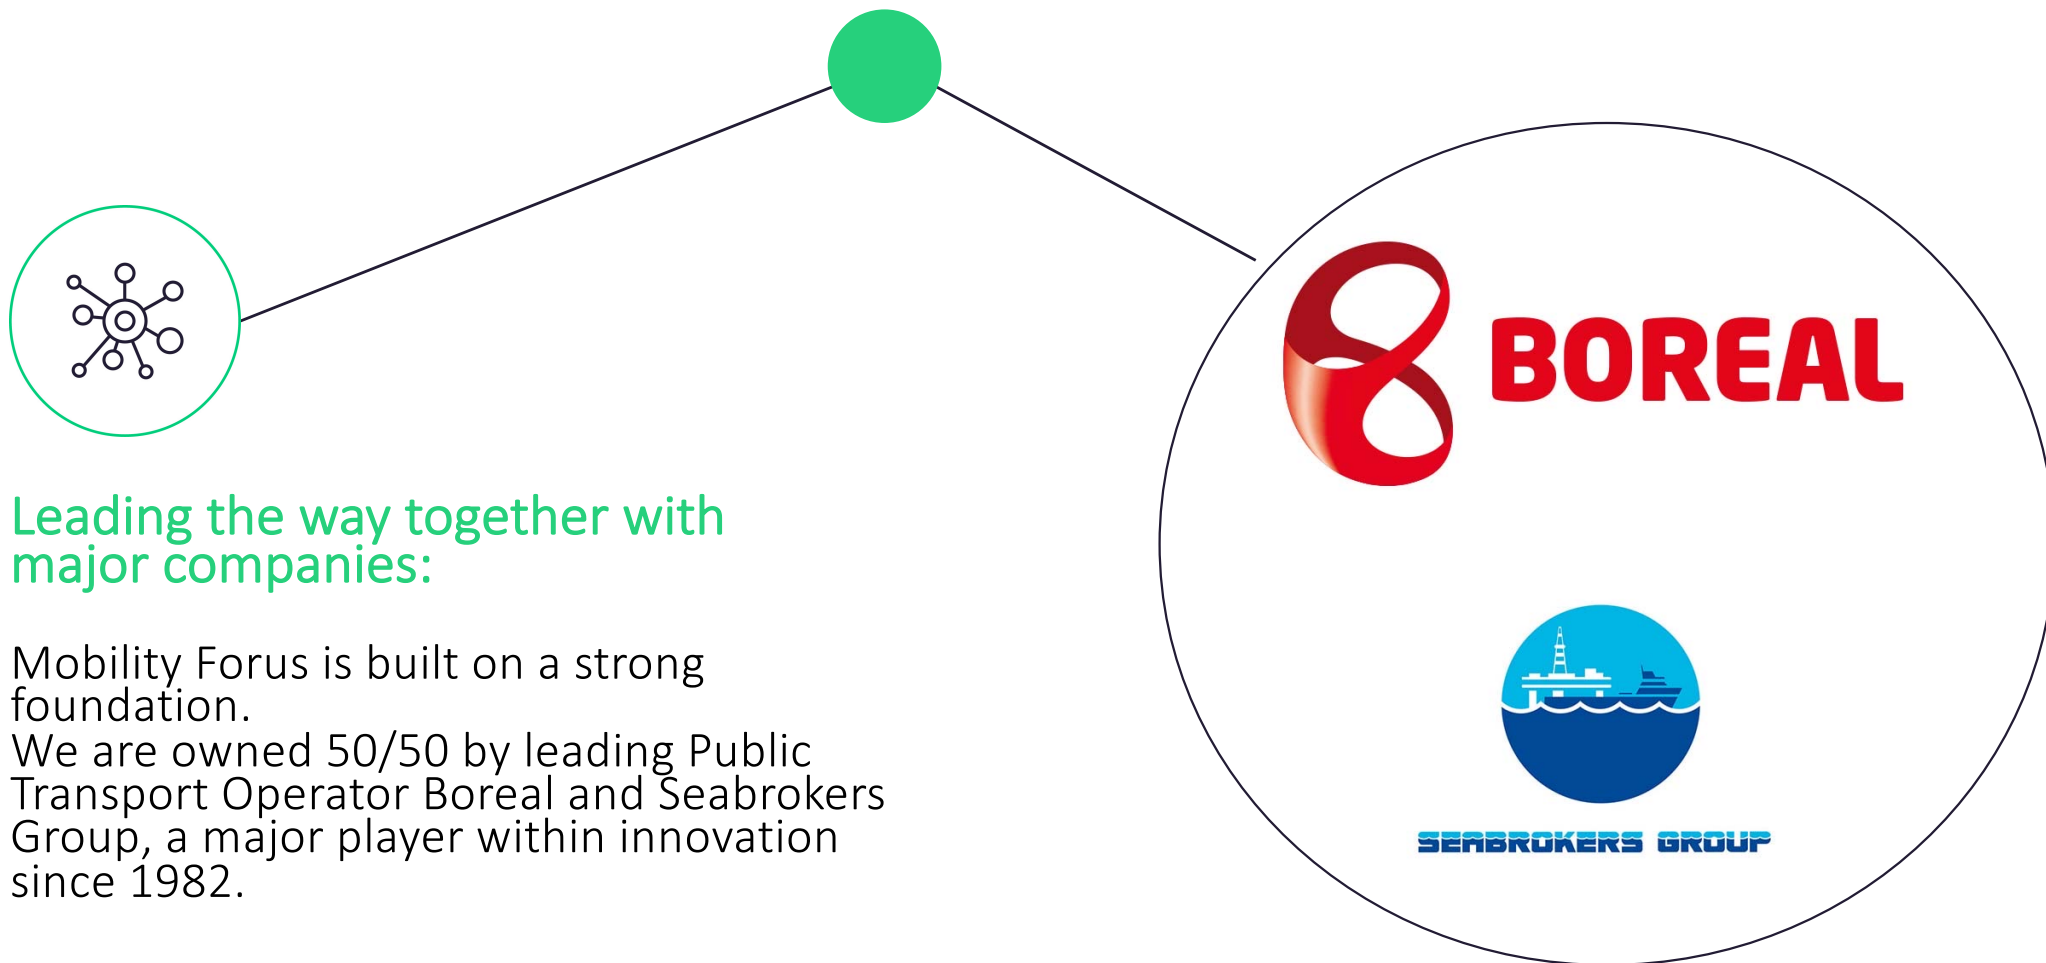

Ålgårdbanen:
transforming old railway
tracks to autonomous
autostradas

Ålgårdbanen:
Mobility Forus and
collaborators are in
the process of
analysing costs for
upgrading the
infrastructure for
operations with
autonomous vehicles
